CIB Call for Papers Special Issue Encouraged Journal Construction Management

Special Issue on Public-Private Partnership: Strategic Issues and the Way Forward

We are pleased to announce our Special Issue call for papers for the CIB Encouraged International Journal of Construction Management on "Public-Private Partnership: Strategic Issues and the Way Forward".

Public-Private Partnership (PPP) evolved in the early 1990's and since its emergence, many governments are adopting this policy. The body of knowledge on PPP is still emerging, with many strategic issues including relationship management, sustainability, unsolicited proposal management, private sector bidding cost, capacity development and innovative financing not been properly examined and consolidated, which add up to the existing implementation adversities.

Considering the increasing adoption of the PPP concept for infrastructure development by governments, there is therefore the need to reconsider and evaluate the inherent strategic and policy issues of PPP.

This Special Issue aims to provide a medium to consolidate and disseminate the current inherent strategic and policy issues involved in PPP project implementation. Further, it calls for thorough analysis and evaluation of the strategic development areas and the way forward for PPP practice and implementation.

Topics for papers

Topics may include but are not limited to:

- Relationship management in PPPs
- Stakeholder management for PPPs
- Specific issues on Transnational PPPs
- Innovative financing and Insurance for PPPs
- Unsolicited PPP proposals
- Capacity development for PPPs
