Retrofit Europe, Innovation Meets Market
5-6 November 2018, Eindhoven, Netherlands

RETROFIT EUROPE!

INNOVATION MEETS MARKET

SBE19 CONFERENCE

5-6 NOVEMBER 2018 - TU/e, EINDHOVEN (NL)

It's one month to go before the Retrofit Europe! Conference, and we have managed to develop an interesting program!

4 plenary debates, a mobile session visiting 4 retrofit locations, and many key notes, all about the central question: "How to get 250 million houses retrofitted for 0-energy performance?"

There are also still opportunities to become a partner, or exhibit in the mini trade fair. Please visit the website for more information and registering.

World leading International Sustainable Built Environment Conferences proudly invites you to the "SBE19 NL" conference from 5-6 November 2018 in Eindhoven, The Netherlands.

SBE19 NL is the first conference in Europe of the 2019-2020 cycle of international conferences on Sustainable Built Environment, where innovation meets market and taking place with a head start from 5-7 November 2018!

The 'must attend' event for 2018 and a deep dive into themes as policies, technologies, social acceptance, upscaling production, choice of concepts for local climates and avoiding material rebounds. Inspiring plenary sessions, combined with breakout sessions (e.g. scientific paper presentations, practical workshops) and field excursions on day 3, where you can learn more about production and building locations in The Netherlands.

The first SBE19 NL conference focus on six main themes:

1. How to get 250 million homes adopt retrofits?
2. Concepts / packages for large scale retrofitting
3. Prefab retrofit panel production units and upscaling
4. Materials, circular / biobased and CO2 impacts of retrofitting
5. Europe wide application versus local limits
6. Best practices and learning from the 1st generation H2020 projects, in particularly on deep renovation and how to implement a diverse range of innovations

Information

More information about the Conference is to be found [here](#).

SBE Conference Series

This Conference is part of the SBE Series of 2019-2020. More information of this series is to be found [here](#).
